

Consent for Conscious Intravenous (IV) Sedation

		For (Patient Name)	
du ha	ring your d the op	e of this document is to ensure that you understand conscious sedation and consent to its use dental treatment. Please read each item carefully and initial next to the item after you have portunity to discuss it with your Dentist, and your questions and concerns, if any, have been be your satisfaction.	
1.	Conscio procedu	stand that the purpose of conscious sedation is to receive dental care more comfortably. bus sedation is not required to provide the dental care; rather it is an adjunct to make the ure more comfortable for the patient. I understand that conscious sedation has limitations and d absolute success cannot be guaranteed.	 Initials
2.	ability to elective	I understand that conscious sedation is a drug induced state of reduced awareness and decreased ability to respond. I understand that Conscious Sedation will not put the patient to sleep, rather it is the elective utilization of a sedative medication to reduce fear and anxiety. The patient can communicate	
	during the procedure, if needed. The patient's ability to respond normally returns when the effects of the sedative wear off.		Initials
3.	to my n	provided my dentist with my up-to-date medical history and informed my dentist of any changes nental and physical health. I have informed my doctor of all medications, supplements, and onal drug use.	 Initials
4.	Lunders	stand that the options of Conscious Sedation include:	
	i.	No sedation: Treatment is performed using a local anesthetic, or not, and the patient is fully aware of surrounding activity.	
	ii.	<u>Nitrous oxide sedation, i.e. "laughing gas"</u> : Provides mild relaxation through inhalation of the gas, and the patient is still generally aware of surrounding activity. Its effects are rapidly reversed with the administration of oxygen.	 Initials
	iii.	Anxiolytics, i.e. "oral sedation": A sedative pill is taken prior to treatment to reduce anxiety and	miciais
	iv. v.	fear. Intravenous sedation, i.e. "IV Sedation": The slow injection or drip of a sedative into a vein. Typically this results in a deeper conscious sedation than oral sedation. General anesthetic: Generally used in a hospital setting or specialized surgical facilities, it requires breathing tube support and the patient has no awareness of his surroundings.	
5.	To be u	sed in conjunction with my dental treatment, I consent to the use of (please check one): Oral conscious sedation $\ \Box$	
	ii.	Oral conscious sedation plus nitrous oxide gas $\ \square$	 Initials
	iii.	Intravenous conscious sedation	
6.	i. I understand that there are risks or limitations to all procedures. For sedation these include:		
	i.	Inadequate sedation with the initial dosage may require patient to undergo the procedure without full sedation or postponement of procedure to another day.	 Initials
	ii.	Atypical reaction to sedative drugs which may require emergency medication attention and/or hospitalization such as altered mental state, physical reactions, allergic reactions and other unforeseen sickness.	 Initials

	iii.	Other possible risks include but are not limited to the following: nausea, vomiting, over and		
		under sedation, re-sedation, hyper-emotional response and/or emergency delirium.	Initials	
	iv.	Inability to discuss treatment options with the doctor or should circumstance require, a change in treatment plan.	 Initials	
7.	I understand that I/the patient undergoing conscious sedation MUST be accompanied home by a			
	known,	responsible adult and supervised for 24 hours following treatment.	Initials	
8.	I understand that I/the patient undergoing conscious sedation is considered legally impaired for 24 hours following administration of the sedative medication. I understand that I/the patient should not drive, operate any machinery or devices, or make any important decisions such as signing legal			
		ents, etc. during this recovery time.	Initials	
9.	I understand that I/the patient must FAST/ABSTAIN FROM EATING for 8 hours before the appointment. (Patients with diabetes should discuss this with their treating dentist.) I understand that			
	this is for patient safety and failure to comply will result in the appointment being cancelled.			
10.	I understand that I must abstain from drinking alcohol, using marijuana or any other recreational drugs for a minimum of 24 hours prior to and following the appointment. Again, I understand that this is for			
	patient safety, as recreational drugs can have fatal consequences when mixed with the medications used in conscious sedation.			
11.	. I understand that I/the patient should take my regular medications (blood pressure, cholesterol etc.) or			
	medications provided by this office (unless otherwise stated by your physician or dentist) with a sip of water. If I have any questions about my medications, I will ask the dentist.		Initials	
12.	 I have informed the attending Dentist of and/or agree to the following: I am not pregnant or breast feeding. I have disclosed all medications, supplements and recreational drugs that I currently take. I have disclosed any known allergies. 			
	 iv. I am of sound mental and physical ability to make the decision to use conscious sedation, and I understand what it is and what it is not. 			
13.	I understand that no guarantee can be promised, and I give my free and voluntary consent for treatment. I realize that my dentist may discover unforeseen conditions requiring different treatment; if, in the professional judgment of the attending Dentist, a change in treatment is indicated, I authorize her to proceed with it. I also understand that I have the right to designate another individual to discuss			
	any ch	anges of treatment with the Dentist.		
		I authorize (Name of Designate) to make the decision on mybehalf to change my treatment plan as advised by the attending Dentist.
